DIRECTORS TO APPOINT MERCHANT COMMITTEE WITH FULL POWER OF AUTHORITY IN PARTOL ISSUE

By a resolution adopted by members of the Chamber of Commerce Wednesday evening a committee composed chiefly of Campbell merchants will be given full authority of power and action over the merchants' patrol in Campbell. The resolution was decided upon as a final measure after a heated discussion at the regular Chamber meeting held in the library clubroom. President Laurance J. Hill presided.

Ballots were sent out recently to merchants of Campbell by the Chamber asking them for a vote of confidence on the issue. Merchants voted 33-6 to let the Chamber continue to run the merchants' patrol in Campbell.

However, at Wednesday's meeting several merchants spoke up and questioned the final decision. As a final measure the members decided on a committee that would be given full power to act on the question and the merchant members would abide 100 per cent. The board of directors were asked to appoint the patrol committee immediately. They will, in turn, investigate all of the possible merchant patrol systems, decide on one, and put it into force. Their decision will be final.

Members of the nominating committee submitted the following names for the offices for the coming year: Joe Dahl, president; Cel Gerevas, vice-president; and Jack Payne, treasurer. The office of secretary is appointive. In addition two directors will be elected to replace the outgoing directors on the rotating board.

Hughes M. Blowers, regional supervisor of distributive education, State Department of Education, spoke to the merchants on the new student employee system now being used in San Francisco, Oakland and other cities. Under this system of schooling selected students in high school are sent out to work in retail stores half day and attend classes half day.

A movie showing how the new educational system works was shown to the members. President Hill, who is also principal of the Campbell High school, brought the speaker to explain the system to merchants here. No action was taken.

Next meeting of the Chamber of Commerce will be held Wednesday, May 18, in the library clubroom at 8 p.m. at which time new officers will be elected.

SPOTLIGHTING SPORTS

By MARV SCARPER

Returning from the recent 20-30 Invitational Relays we were convinced that it was the greatest aggregation of high school track telent ever assembled except for state finals to be held later on. The meet, which began with the trial heats at 10:30 in the morning and ended with the awarding of the trophies at 4:30 in the afternoon, was packed with excitement.

Outstanding athlete of the meet and the winner of the 23-inch trophy for that award was John Henry Johnson of Pittsburg High school. Johnson received the trophy from last year's winner, Ollie Matson of the University of San Francisco. Johnson also received trophies for setting new 20-30 records in the shot put and discus throw. Johnson broke Bob Mathias' record of 142 feet, 6¼ inches in the discus with gigantic heave of 148 feet, 6 inches. Right after winning one gold medal he walked over to the shot put pit and heaved the iron ball 55 feet, one inch to again break Bob Mathias' record. Mathias previously held the 20-30 Relay record at 53 feet, one and one-half inches. Johnson continued to add to his laurels by tieing Henry Martin from Fremont, Sunnyvale, in the broad jump with a leap of 21 feet, 11 inches. This was only eight inches from another record. Johnson, who is a great performer, then went over and ran fourth in the 100 yard dash final which was won by Jim Plessas of Lowell, San Francisco in the fast time of :09.9. John Henry placed second to Lincoln's Dick Welles in the high jump only to be disqualified from that event because he had already competed in four events.

Johnson's total at the end of the meet was three trophies, three gold medals and one bronze medal, a good deal of work for any athlete. According to his coach, Robert Robinson, formerly of Campbell, Johnson is a crack low hurdler as well. Maybe Pittsburg has another decathlon champion in the making who will challenge Tuare's talented Bob Mathias.

We were told that Johnson is an ace basketball and football player also and led his respective teams to win their league championships in both sports.

• • •

The Relays as a whole were very fine and turned out some excellent races. McClasky of Chico ran a good race in taking the 120 yard high hurdles in 15.3. Jim Plessas, in addition to winning the 100 yard dash, put on an added burst of speed in his anchor lap of the shuttle hurdles to nip Lincoln and win the event for Lowell.

Edison Tech of Fresno entered a mile relay team which took first with each man running his quarter in an average of 52.8 for a total time of 3:30.3 for the mile.

El Cerrito High school sprinters had the fastest relay teams as they won the 880 relay class A in 1:33.5 and placed second to Watsonville in the 440 relay. Fremont's relay teams placed fourth in both the 880 and 440 yard events to keep the SCVAL from being excluded from the races. Santa Clara's two mile team placed third in that event to about wind up the day's running.

High School Gym Open To Adults Twice Each Week

All adults are invited to attend recreation night each Tuesday and Thursday at the Campbell Union High school gymnasium, according to Bill Perry, physical education instructor. The gym is open from 7:30 to 10:30 p.m.

"Men and women, whether they are on teams or not, are invited to participate in the recreation facilities at their disposal," said Perry. "And if there is enough interest and enough out we might form some ball teams on those evenings."

The gym is open to all adults whether they live in the immediate Campbell area or not, Perry added.

Burnett, Claribal Vining, Grace Givens, Harriet Edsinger, Ward Edsinger, Edna A. Flagg, Raymond J. Flagg, Mrs. Wilber Emmons, Mary Baldani and Helen E. Givens.

Robert Howe takes Job with Northrup; To Work with Navy

Robrt Towe, grandson of Mrs. Clara B. Howe, 321 So. Winchester road, Campbell, who recently was awarded a diploma in engineering by the Northrup Aeronautical Institute of Hawthorne, has accepted a position with the institute and is assigned to the Naval Air Missile Test Center at Point Mugu, California, to work on a Navy contract.

His new job will enable him to apply engineering training acquired during his two-year enrollment at the Northrup institute.

Howe's employment was arranged through the institute's graduate placement department. He was selected for the position because of his conduct and record in applied engineering during his attendance at the school, according to James L. McKinley, institute director.

Northrup Aeronautical Institute, a division of Northrup Aircraft, Inc., provides instruction in aeronautical engineering and mechanics correlated with the same advance methods that produced the mammoth Northrup Flying Wing B-49 bombers and the Northrup Scorpion XF-89 all-weather fighters.

Howe, who served for three years in the U. S. Air Force during World War II, attended Campbell Union High school and San Jose State college before enrolling at the Hawthorne school.

Gold Star Tea Date Changed To May 11

Due to the fact that the United Council of Church Women will observe their meeting on May 6, the Gold Star Mother's Tea, previously planned by the members of the American Legion Auxiliary, has been advanced to May 11.

The tea, which will be held in the Country Women's Clubhouse at 2 p.m., will honor all Gold Star Mothers. It is under the direction of Mrs. Barth O'Brien, general chairman.

A single gold pocket near Sonora yielded $360,000 during the Gold Rush Days.

MEDICAL CARE HIGHLIGHTS

How 52,000,000 Americans cast a vote -- for a good idea . . .

One of the most progressive stories in the history of this country is that of the recent growth of voluntary prepaid medical care plans.

The whole idea is one that grew out of some sound local planning by a group of physicians in a logging camp in Oregon some twenty years ago. By 1930, the idea had spread to eleven other areas. Soon, doctor-groups originated prepaid hospital care insurance plans; medical societies financially backed other plans offering even more extensive services. Public acceptance and physicians' support later led the American Medical Association, in 1942, to establish a special department devoted exclusively to aiding all persons or groups in expanding this democratic principle of voluntary health insurance for all Americans.

Today, 52 million persons in this country are protected by some form of health insurance. 32 million have Blue Cross hospital and surgery insurance; 11 million more have surgical cost insurance. Another 9 million have coverage for home and office care as well as hospital and surgical expense.

More than 25 million of those enrolled have joined these plans in just the last five years!

To work diligently, through local medical societies, to test, develop and encourage progressive medical care programs has long been a prime objective of the American Medical Association. It helps to assure "the best there is"—for all.

Service for all. If you know of anyone going without a physician's care simply because of financial reasons—please call our Medical Society office, at once. The medical profession of this county, in keeping with its individual member's oath always to place the patient's welfare above every other consideration, guarantees that anyone needing the service of a doctor can get that service irrespective of the patient's ability to pay.

Protection for all. Any professional act believed to be contrary to public interest or the charging of a fee believed by the patient to be excessive, should be reported in writing to the Society. The services of the Medical Society's Ethical Conduct Committee are available to all.

Recommendations for all. Suggestion No. 1. Learn the day and night telephone number of your family physician—or the number of your local Physicians' Emergency Telephone Exchange. The latter is a phone service "that never sleeps." It can locate a doctor for you at any hour of the day or night. . . . Suggestion No. 2. Arrange while you are well to meet the costs of hospital or medical care through some prepaid budget plan. Enroll in the voluntary health insurance plan of your own choice, now. *Free information folders describing voluntary plans supplied upon request.*

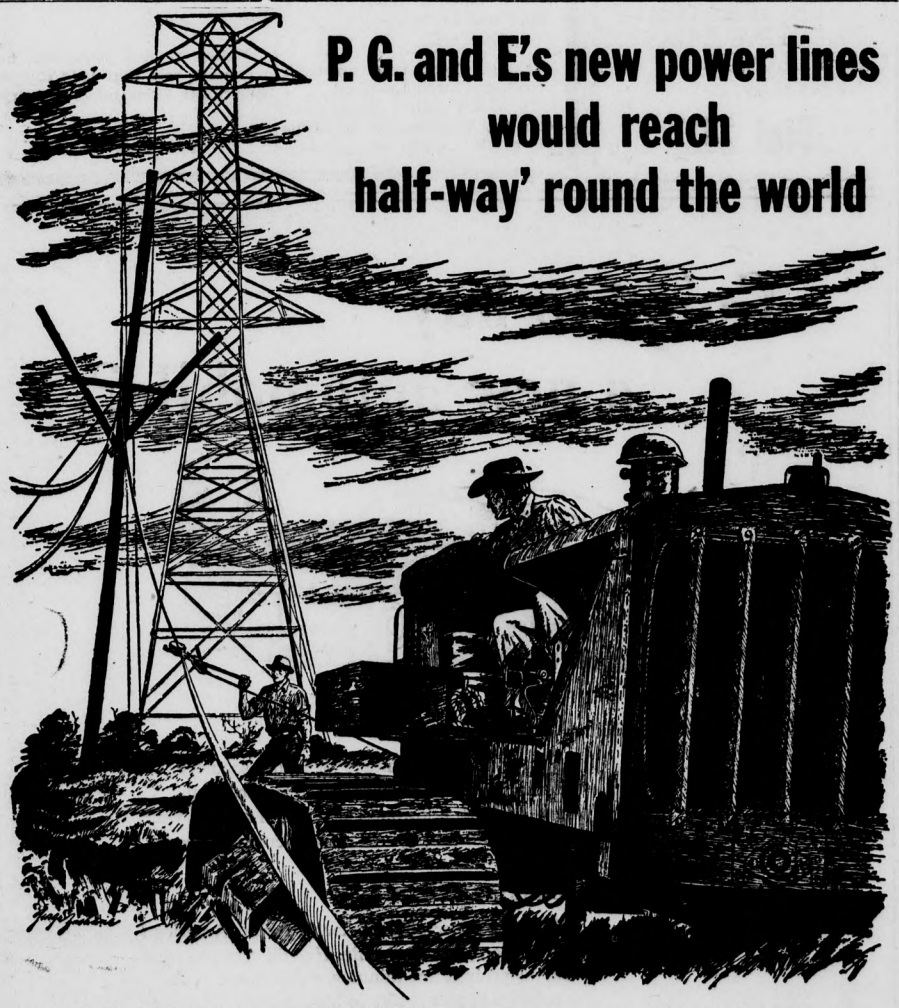
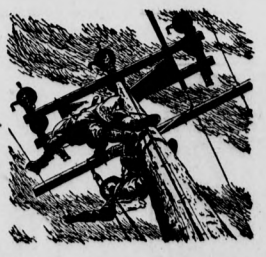
P. G. and E.'s new power lines would reach half-way' round the world



Swinging between towers and poles in Northern and Central California today are some 12,000 miles of new power lines . . . added since war-time building restrictions were lifted. And even more new lines are going up at the rate of 3,000 miles a year. That's three times as fast as prewar construction. All told, more than 50,000 miles of transmission and distribution lines are already on the job in the area we serve—America's largest inter-connected power network.

Helping speed the job are new methods and equipment like this radio telephone. With it an engineer can tell a distant winch operator just how much tension to put on the line as it is hoisted up and strung between towers.



These new lines and half a million new horsepower are serving California's expanding industrial and agricultural activities. Last year alone, more than 71,000 new electric customers were connected to P. G. and E's system.

For the record

P. G. and E. is investing millions in new power-producing facilities.

This post-war expansion program—America's greatest—is about at the half-way mark . . .

. . . and is keeping ahead of Northern California's growing power needs.

Work never stops on our power-building program

Parents Discuss Summer Plans

Leaders of Saratoga Cub Scout Pack 29 served coffee and doughnuts to top off the monthly round-table discussion for this area which was held Tuesday evening of last week in Los Gatos.

Cub leaders and parents from packs in Los Gatos, Alma and Saratoga met with Mr. Frank Olson of San Jose area Boy Scout headquarters to discuss problems and plans for cub activities. Topics for this month included preparations for summer program. A film was shown in which were many suggestions for keeping the boys interested in the Cub Scout program.

The **Larry Keck's** are home again in Campbell after a six-months jaunting around the Sacramento valley. They returned last weekend.

News Notes From Moorpark School

On arriving back after the Easter vacation of last week the pupils and teachers found the foundation forms already in for the two new buildings on the south side. Now construction is on both sides of the classrooms.

The children are thrilled with the latest addition of equipment to the playground. It is called monkey rings; rings suspended from a 15-foot horizontal pipe. The piece is excellent workmanship, made under the direction of Mr. Claude Chamberlin and Mr. Robert McArdell, both of Pioneer avenue. This is the fourth piece of equipment in a program carried out by the Moorpark Men's club.

Mrs. Irma DiBenedetto is scheduling parents to visit her classes during the week when their children will recite in class.

The Moorpark PTA will hold a whist and bridge card party Saturday, April 30 at 8 p.m. in Moorpark school. Refreshments will be served. Door prizes and prizes for winning card players are to be awarded.

Mrs. Madeline Stephenson is having a summary Parent Conference to follow up the one earlier in the year to which all her mothers were invited, at 11:00 in the Teachers' Room.

Success: Making more money to meet obligations you wouldn't have if you didn't have so much money.

For Mom: A new watch—Elgin-Gruen. Prices start at $24.75 and up at Johns Jewelry.

There are obviously two educations. One should teach us how to make a living, and the other how to live.

Things don't turn up until somebody turns them up.

A person with a closed mind can get by nicely if he keeps his mouth closed, too.

Maybe Mom just needs a new watch band. $5.25 and up. (Fed. tax inc.) at Johns Jewelry.

Most people's idea of "starting afresh" is going on in the same way somewhere else.

When you are in the right you can afford to keep your temper: when you are in the wrong you can't afford to lose it.

Watch mom's eyes lite up when she sees that 1847 Rogers silverplate from Johns Jewelry.

Santa Clara 4-Hers Turn Out To Show Livestock In City

Santa Clara 4-H clubs were well represented at the Grand National Junior Livestock Exposition, which was recently held at the Cow Palace in South San Francisco. Fourteen boys and girls from eight local clubs exhibited their projects at this annual show. In addition to these farmers and farmerettes, several of the clubs made educational tours to the show to witness the judging and to study the animals that were exhibited there by club members from four of the eleven western states.

In the steer division Gloria Alvernaz of Union had her livestock graded as "choice." She was among the three youngsters that received this rating from this county. She also received a "good" rating on her swine entry.

Congregational Church To Celebrate 60th Anniversary Sunday In Services, With Picnic Lunch To Follow

The 60th anniversary, or Diamond Jubilee, of the Congregational church of Campbell will be celebrated Sunday, April 24. The church was organized April 24, 1889, by Rev. William Windsor, D.D., who has come to the Santa Clara valley for his health.

Seven local people who have been members of the church for more than 50 years will be honored at the morning service, and 30 new members will be received. The morning church service will be followed by a picnic lunch, with each family bringing its own lunch, lemonade and coffee being served by the committee.

At 1:30 p.m. there will be community singing led by Mrs. Winifred Goodell. Following this there will be a historical address and reminiscenses by the older members.

The morning service will be held at 11 a.m. for the last time this spring, as on the following Sunday, May 1, the unified service of the church and Sunday school at the same hour will begin at 10:30 a.m., thus enabling families to attend church and Sunday school at the same time, and be home by noon.

State To Present Love Story May 5-9

San Jose State College's next drama offering, "Margaret Fleming," is an unusual love story set in the 1890's.

Director John R. Kerr will have a small but very select student cast to support Elizabeth Loeffler, drama staff instructor, who will play the difficult role of Margaret Fleming.

Matt Pelto, one of the college's most talented and experienced actors, will play Philip Fleming, Margaret's well-meaning, but care-free young husband. It is Philip's indiscretion that throws a shadow across Margaret's life and sets the stage for this astounding portrait of human devotion.

Graduating senior, Jackson Young, ends his college acting career as Doctor Larkin, a man of medicine whose sense of values as well as science makes him an important figure in this strange interlude.

Stanley Schwimmer will play Joe Fletcher, an amusing traveling salesman, though a totally irresponsible family man.

Don Pearlman and Peter Hayden will both bring their experience to help create two stolid background characters, Foster and Williams, key figures in Fleming's mill.

Russell Scimeca adds a youthful touch as Bobby the office boy. Shirley Wilber was picked by Director Kerr to develop the high pitched emotional scenes of Maria Bindley whose sister has been dishonored. Well known State College actress, Evelyn McCurdy plays Mrs. Burton, Betsy Smith is Jane, and Lorraine Davidson, a newcomer from San Francisco will play her first Little Theatre role as Hannah.

The play is scheduled to run the 5th through the 9th of May.
